

MTI COLLEGE

Transferability of Credit

The transfer of credits from MTI College to another college is entirely up to the receiving college. While MTI does not guarantee or promote that any of its credits will be accepted by another postsecondary institution, it has been our experience that other vocation-oriented colleges accept most MTI credits.

The following transfer agreements exist between MTI College and other academic institutions:

California State University Sacramento (CSUS)

MTI College

GE201 English Composition
GE230 Fundamentals of Economics
GE234 American Government
GE240 Environmental Science
GE251 Contemporary American History
A121A Accounting + A121B Accounting + A130 Advanced Accounting

CSUS

GE Area A2
GE Area D1
GE Area D (U.S. Constitution)
GE Area B2
GE Area D1
ACCY1

Course credit from other college-level courses, with the exception of remedial courses and courses specific to a major, are accepted as elective credit and will be applied toward the 120 units required to graduate.
